SUMMARY

An ambitious software developer with a strong foundation in full-stack development, artificial intelligence, and automation. Proficient in designing scalable solutions and developing AI-powered tools. Having experience collaborating in dynamic environments and committed to delivering excellence.

WORK EXPERIENCE

Software Developer Intern at Taashee Linux Services

Oct 2024 - Jan 2025

Designed and developed a custom content management system (CMS) using Alfresco API to manage files, users, and groups. Implemented user authentication & role-based access control using Alfresco's people and groups API. Implemented a fully functional User Management module with create, edit, disable, and search options. Created a Group Management System, enabling group creation, editing, and user-group mapping. Integrated Express.js, and React for seamless data flow and UI/UX improvements. Ensured clean, modular component-based architecture for scalability and maintainability.

PROJECTS

Fake Image Detector

[Link](#)

- Developed a deep learning-based Fake Image Detection system using ResNet-50 to classify images as Real or Fake.
- Trained the model on image datasets and fine-tuned it to improve accuracy.
- Integrated FastAPI for backend services and Torchvision for image processing

Jobby App

[Link](#)

- Designed pages for Login, Home, Jobs, and Job item details using React components and form inputs.
- Secured user data with JWT tokens, REST API calls, and local storage, ensuring robust authentication and authorization.
- Implemented protected routes and persisted login state with React Router and local storage.

Prompt Architect

[Link](#)

Built a web platform to design, optimize, and manage production-ready AI prompts. Features include modular prompt structuring, optimization for clarity and reusability, template libraries, and version tracking. Integrated GPT/Qwen models for real-time testing and recommendations

EDUCATION

2022 - 2026 : Bachelor's Degree at **Matrusri Engineering College**

GPA: 8.9/10

2020-2022 : Class 12th

96 Percentage

2019 Class 10th :

10CGPA

SKILLS

FrontEnd :	HTML, CSS, Bootstrap, JavaScript, React.js
Backend :	Python, Express, Node.js , Py-torch
DataBase :	SQLite, MongoDB
Other :	AI / ML, AWS, C, C++, Data Structures
Algorithms, Git, Java, NumPy, OOPs, UI/UX Design, Communication	

ACHIEVEMENTS

Reliance Undergraduate Scholar

Awarded for academic excellence and outstanding performance in both academics and extracurricular activities 2022-2026

Smart MECS Hackathon

Led a team to develop an innovative Job Employment and Skills Learning App using MERN Stack. Secured 3rd place out of 70 teams by presenting a high-impact solution

CERTIFICATIONS

Industry Ready Certification in Full-stack Development by NXTWAVE
